

This Monday, February 6, 2022, an earthquake has affected the North and East of Syria, producing a humanitarian disaster: thousands of dead, thousands of injured, destroyed buildings and problems in the most basic supplies. In this sense, and given the emergency in the territory, we call for international solidarity.

Having assessed the situation and made an analysis of the initial damage, the main needs that now exist in the territory are the following:

- Medicines to care the injured people and save as much lives as we can. An Annex with the list of medicines is attached at the end of the document.
- Send money to the organization Heyva Sor a Kurd to use it to care for the wounded in the territory of the North and East of Syria.

Many thanks in advance for the solidarity of the Generalitat de Catalunya.

We are at your disposal for everything you need.

Annex: List of necessary medical equipment needed to care people injured by the earthquake.

- A set of test spectacle lenses and prisms
- Accomodometer with astoptometer
- Ambu respiratory bag
- Anatomical tweezers
- Apparatus for massaging the tympanic
- Apparatus for ultrasonic cleaning of tools
- Armchair Barani
- Astigmo corrector
- Binocular magnifying glass
- Bix
- Bix stand
- Blood pressure meter
- Breathing tube TD-1.02
- Cardiofibrillator monitor portable with
- Centimeter tape
- Centriscope
- Color test
- Computer
- Container for disinfection of spatulas, tools
- Container for disinfection solutions and
- Corang
- Cryosurgical equipment
- Device for measuring blood pressure
- Device for measuring intraocular pressure
- Diameter coagulator
- Diopter meter
- disinfection
- Dressing table
- Dry oven cabinet
- Dry-air sterilizer
- Dry-cooker sterilizer
- Ear manometer
- Ear mirror
- Echo-ophthalmograph
- Electrocardiograph

- Frontal reflector
- Gonioscope
- Gynecological chair
- Gynecological mirror
- Insufflator
- Laser device for resection and coagulation
- Maculotester
- Magnifier
- Manual ophthalmoscope
- Medical cabinet
- Medical couch
- Medical hand dynamometer
- Medical pear
- Medical stretchers
- Medical thermometer
- Medical tray
- Medical tuning fork
- membrane
- Microscope with prints
- Negatoscope
- Neurological hammer
- Nose mirror
- Operating table
- Ophthalmometer
- Ophthalmoscope forehead binocular
- Otoscope
- Perimeter of the field of vision (perigraph)
- Portable gynecological illuminator
- Portable oxygen inhaler
- Portable surgical aspirator
- Refractometer
- Reusable scalpel
- Rubber examination or surgical gloves
- Rubber tube
- Scalpel with removable blades
- Set of otorhinolaryngological instruments
- Shadowless medical mobile illuminator
- Shadowless SBPA-15 lamp
- Sign projector
- Slides

- Small surgical set
- Spatula
- Stethophone endoscope
- strabismus)
- Surgical aspirator
- Surgical clamp
- Surgical tweezers
- Synoptophore (for diagnosis and treatment of
- Syringe Jean
- Table for tools
- The irradiator is bactericidal
- The lamp is slit
- The tray is kidney-shaped
- Tool table
- Ultrasonic inhaler
- universal
- Water distiller

* We know the list is long, but the situation is very serious. Therefore, we ask that you send everything possible.
